HAIX® Climate System

Soft upper shaft edge trim

Perfect fit winter insole

Upper material

Waterproof leather, hydrophobized, breathable (5.0 mg/cm²/h), 2.0 – 2.2 mm thick

Inner Lining

GORE-TEX® Performance; with woven fur lining, waterproof and breathable. Abrasion-proof lining fabric with fleece inner layer. Optimized climate comfort for all seasons even under extreme conditions. Enhanced protection against chemicals.

Fleece insole

Moisture-absorbent fleece insole.

Foot bed

Standard winter insole is supplied with the shoe. Comfortable, cushioning and moisture wicking. Separate heel cup provides good cushioning and foot guidance.

HAIX® Protective toe cap

Anatomically formed and ultralight protective toe cap made of fiber-reinforced plastic for highest safety requirements.

HAIX® Protective sole

Flexible, lightweight and metal-free protective sole.

Sole

Anti-slip rubber/PU sole with road/off-road profile, abrasion-proof, for enhanced toe-to-heel support, ideal for cold weather conditions. The lightweight PU cushioning wedge provides optimum wear comfort. Excellent thermal insulation. The non-marking outer sole is resistant to heat and fuel-oil.

HAIX® Climate System

The HAIX® Climate system uses the pumping movement, which permits air circulation with every step – warm air is released and fresh air comes in through the vent holes at the top of the boot.

HAIX® Vario Wide Fit System

Through 3 different insoles, the shoe can be individually adjusted in width. The insoles in red (medium), yellow (wide) and blue (narrow) must be ordered separately.

Sun Reflect

Reduces the heating effect of the upper leather by direct sunlight. Sunlight is reflected by the leather, keeping the leather and the feet cooler.

Other features

Top-quality non-friction lacing elements, reinforced toe section.
