## SOLE

Ergo Safe is the safety shoe useful for people who have problems with back and joint pains. It is in fact the only ergonomic shoe in the market, studied to give a solution to these needs and in the same time to assure a complete protection. This is possible thanks to the round sole, that allows a uniform discharge of body weight all along the sole of the foot, giving a good feeling to the back, the knees and to the heels. Ergo is also studied to improve walking, by giving a better blood circulation and a saving of energy at the end of the day.

## PLUS

### IDROTECH®

IDROTECH® is a leather treatment with the aim to optimize the water resistance and the foot perspiration. This particular tanning method, thanks to the used mineral salts, gives an excellent softness and a complete mechanical resistance to oils and hydrocarbons. The IDROTECH® leather is certified according to the norms ISO 4045, ISO 17075 and ISO 5403.

### AIRNET®

Airnet® is a certified technology that guarantees the maximum perspiration of the foot by wearing a strong and abrasion resistant safety shoe. Thanks to its construction air tunnel, facilitates the air passage and the material, 100% polyester, guarantees a perfect resistance to abrasion, to traction, to tearing and to washing.
